

“Bharat Bhawan”

Residential education and health care project

Project by Shree yog and health organisation
Khajuraho

Dedicated for the multidimensional development of rural and tribal children's those are not able to receive proper education, care and guidelines for their on life due to variable Causes and circumstances.

Project start Date: 12 Feb 2017

Script writer :- Dr.Raghav Pathak (Founder of SYHO)

Goals

- ❖ 1. Development of residential dormitory with personal study chambers, library, playground for needy rural and tribal children and proper mess for supplying them required nutrient diet to continue their education.
- ❖ 2. Observing their regular and routine health, brain, emotional developments with giving proper shape to their professional, hobby based artistic and personal life in a healthy environment.

Specification

75% Indian population still live in rural and tribal villages. There are still not proper facilities and essential environment to give a healthy, conscious and fear free education to a child under proper health and professional education care.

The government system is not sufficiently able to cover all required dimensions of services for complete development of a child. Also the families and parents of children are not really aware about the basics of life as per modern level of human society.

Here our goal is to settle a bridge between ancient traditional systems and modern world, to create an environment where children will get the sufficient required facilities as per modern competitions in world, but without forgetting their own traditional roots which are able to give them some humanitarian awareness.

Milestones

- ❖ Project Land
- ❖ Sponsor For Land
- ❖ Beginning of classes
- ❖ Primary first construction
- ❖ First Three residential admissions of kids and their sponsor
- ❖ Next goals

01. Project land (February 2017)

It was important as the first step or milestone to find land where we can give primary shape to our life long project in the atmosphere which will not separate children from society immediately , so they can feel familiar with the environment and situation which allow them to grow in all required dimensions of life.

While we were looking for land we were focused also another important point that children's protection is the first priority, someone who can be completely responsible for the children's security should be nearby to primary project space.

During search by luck or destiny We found a land which was 1700sq meter area, just next to my own parental house (SYHO founder Dr.Raghav and SYHO Treasurer Mrs. Nisha Pathak).

The owner of land was in some urgent need of money for his own ongoing treatment that's why land was available to buy in Very nominal price.

02. Sponsor for Land (Manola & Peppe)

- ❖ The next important step was to find a sponsor who can sponsor or donate money to purchase such land immediately which was available to buy in only 7000 Euros just next to my Parental house a perfect location as per need of Project.
- ❖ I visited Milano during my tour to Europe in 2016, where I met an energetic young couple Event organiser Manola Placa and Musician Peppe Messina. They shared with me their vision and wish to open a school in India, and at the same time I shared my vision and goal with them too.
- ❖ When we found the land here in India, I immediately thought about them and contacted, they got highly excited to listen and immediate became ready to sponsor the entire cost of land for such Project.
- ❖ The landlord gave us some extra discount in price for sale, when he came to know about the holy aim of the project from his such land, From that discounted money we became able to make a bore well to find water on land. Thus two important steps completed at the same time.

by Action

L'amore per la vita mi porta a dedicarmi non solo a me stesso ma anche agli altri, difatti questo progetto musicale è nato con l'intento di sostenere il "Centro Educativo Cura e Salute dei Bambini Manola e Peppe" di cui sono fondatore assieme a mia moglie.

PROGETTO INDIA

Tutti i proventi ricavati dalla vendita di questo mio primo cd (tolte le spese vive) andranno versati direttamente sul conto bancario dedicato al progetto. Sul nostro

03. The first Class on Project Land

- ❖ Here Treasurer of SYHO my wife Mrs.Nisha Pathak was highly excited to begin her classes to children those have been looking for regular education around our home .
- ❖ She invited all the children those were searching for guidelines to clear their own concepts related with their school course, and begun her session on the open ground of this land,
- ❖ She started her regular coaching for kids, whenever she experienced some difficulties because of hot weather or rain, she begun to offer her own on room for kids but never gave gap in regular coaching to kids. *Photographs are in next slides....*

04. Primary or First construction Sponsored by Dr.Pathak (my papa)

- ❖ Till 2018 September we have been waiting to develop, project's next step, but we didn't find sufficient and required support to develop basic primary construction.
- ❖ Here my father (Father of Dr.Raghav) was eager to see the project developing. He was observing the dedication of Nisha (his daughter in law) for her coaching. He realised that there is difficulty to get donations for primary construction, then he himself offered 3 Lakh rupees for start primary construction of this Project., and then it was he, who was regularly watching the progress of construction. Same time we received some more donations too for SYHO, that we used to finish primary construction with one toilet, one big hall, where kids could get their lessons regularly.
- ❖ In between this before final furnished completion of primary work of Center my father passed away in Feb 2019. But among him SYHO's such project got the primary shape already.
- ❖ After his death we continued to finish primary construction. The expenses reached more than our collected donation, that got covered during my tour to Europe in 2019.

05. First class in Building

- ❖ After complete construction of building Nisha and kids started their regular coaching from big hall of center building.

First Three resident kids admission

- ❖ Surendra, Harischandra, and Jashoda three kids, those lost their mother in their early childhood admitted in our this center project as first three kid.
- ❖ These three kids was constantly under care of SYHO.
- ❖ Now they were in need to intense care, attention for their education.
- ❖ One couple from Milano took interest to become god mother and father of these three kids. Now we are looking forward to grow our this project for further next steps.

Next Goals

- ❖ Construction of two well equipped furnished dormitories to accommodate for 4 male children and 4 female children with attached two separate toilets(one for girls one for boys) . **Approximate average expense(area 900 square meter) :- 6,50,000 INR (8,000 Euros)**
